

I do not wish to have my rights to access to Xm radio and it's public service and entertainment tampered with by HR4026 brought by the NAB before the FCC. This is a service that I pay for, enjoy, and have a right to obtain under the First Amendment. I urge you not to support this petition which will compromise my rights as a consumer, and the Xm radio's rights to free speech and free commerce. Sincerely,  
Jan Miller
